Great Britain Removes Embargo On Cattle and Sheep from New England.

HOW THE GOOD WORK WAS DONE

Secy. Wilson Says No Country Has Ever Succeeded in Stamping Out Such an Extensive Outbreak,

Washington, Sept. 29 .- Sec. Wilson gaid today that the receipt through the state department of an official notice that Great Britain had removed its embargo on catle and sheep from the New England ports was the conclugion of the great work in which the department had been engaged since Sept. 1 for the eradication of foot and mouth disease from the New England states and the restoration of traffic to the condition it was in before this outbreak occurred. The secretary regards this as in effect the most important and valuable piece of work that the department has done for American agricul-

"No country," he said, "has succeeded in stamping out such an extensive outbreak of this disease. The work was accomplished under great difficulties. The weather in New England last De-cember was very inclement and the incember was very inclement and the inspectors and their assistants were obliged to work in the open country with the thermometer far below zero. Some of the men had their extremities frozen and were disabled. Notwithstanding these obstacles, the work went forward constantly and rapidly. "It is difficult, even at this time, to understand how the pits were dug in the frozen ground for burying the carcasses, and how the disinfectants were applied with everything of a liquid nature frozen in a short time after it was exposed to the atmosphere. But the work was so thorough that not in a single case where the disinfection was conducted by the department's representatives did the disease re-occur resentatives did the disease re-occur when fresh cattle were introduced. "During this work 3,900 cattle and 590 hogs and sheep were slaughtered and paid for, and over 200 premises were The total cost of the work was less than \$300,000. Condition of the Crops.

Washington, Sept. 29 .- The weather wasnington, sept. 23.—The weather bureau's weekly crop bulletin: The principal corn states have exper-ienced weather conditions exceptional-ly favorable for maturing late corn and while frosts have been quite general over the central and eastern portions of the corn belt, no material damage is indicated. Probably less than 20 per cent of the corn crop is unmatured, and while the proportion vet exposed to injury in South Dakota, Minnesota and Wisconsin is greater the immature will make good feed; farther south only a very small part of the crop is still soft. Cutting is quite general in all sections and some new corn has been marketed in Southern Kansas.

Since then the couple have been on more or less intimate terms the man frequently showing his jeal-ousy over attentions shown the girl by other men.

THE MICROSCOPE Proves That Parasites Cause Hair

Nine-tenths of the diseases of the scalp and hair are caused by parasitic germs. The importance of this discovery by Professor Unna, of the Charity Hospital, Hamburg, Germany, can not be overestimated. It explains why ordinary hair preparations, even of the most expensive character fall to cure dandruff; because they do not, and they can not kill the dandruff germ. The only hair preparation in the world that positively destroys he dandruff parasites that burrow up the scalp into scales scurf or dandruff, is Newbro's Herpicide. In addition to its destroying the dandruff germ Herpicide is also a delightful hair dressing. Razlog in Flames-Fifty Turks Killed -lasurgents Use Bombs-Big Protest Mass Meeting in London.

Sofia, Bulgaria, Sept. 29.-A telegram received here from the camp of Gen. Zonticheff, the commander-in-chief of the Macedonian insurgents at Razlog, 55 miles from Sofia, announces that a general rising was proclaimed Sept. 27 in the districts of Razlog, Novrokop, Demoirhissar, Melnik and Seres, and that all the insurgent bands in eastern Macedonia had received direct orders to begin operations.

The chief hope of the revolutionary organization now centers in the out-break in eastern Macedonia which is expected to assume considerable pro-portions as the leaders there are all officers of the Bulgarian reserve. This, the sympathizers with the Macedonian cause hope, will arouse a war feeling in the Bulgarian army and force the government to espouse the Macedonian

GOES FOR THE BISHOP.

London, Sept. 30.—Sir Edward Malet, formerly British ambassador to Germany, writes to the Times this morning reprehending the attempts of the bishops to force the hands of the government in Macedonian affairs, and says that Great Britain could only ac-

cede to the bishops' demands by in plain English, "going to war."

If the government made such a move as the bishops demand, writes Sir Ed-ward Malet, it would be left by the other powers in splendid isolation and faced with the alternative of an ignominous retreat or war. The former would do infinite harm to the Mace-donians, while the latter would mean letting loose the dogs of insurrection as well as the dogs of war, and would give the coveted opportunity to Great Britain's innumerable enemies throughout the world.
